

Businesses hire us to create compelling visuals that tell their stories and humanize their brands.

OUR MISSION

To harness our extensive experience creating visual imagery that humanizes organizations, seamlessly reinforces brand messaging, and cuts through the mechanized noise of an increasingly impersonal communication environment.

WHO WE ARE

CEO & Producer
Patrick Barlow

Patrick was raised in the studio, working with his father from a young age in the business of video production. His decades of experience make him an invaluable guide for companies using video to connect with customers.

Director of Photography
Bill Sawalich

Bill made his first darkroom print at age 10 and has been a student of photography ever since. This core identity and extensive experience give him a unique perspective on the many subtleties of clear and effective visual communication.

PERSONAL EXPERIENCE

We help marketers, nonprofits and businesses of all sizes communicate more effectively through people-first video and photography that puts forward warmth, relatability and trust. From concept to completion, we can take the lead or help to complement your vision, working to bring it to life in our St. Louis studio or on location throughout the midwest.

People first, with the experience to lead.

CONTEXT MATTERS

In a marketing environment oversaturated with disposable stock imagery and off-putting AI visuals, we help businesses showcase their most unique and meaningful advantage: the people who reflect a company's values and deliver on brand promises in a relatable and *genuinely* authentic way.

Human authenticity customers relate to.

OUR WORK

We want to be your production partner, helping to humanize your brand in a meaningful way.

Thank you!
